The College GIIT

Mahatma Dhule Education Society has established a chain of Institutions Nationality and Internationality in this chain the Gwalior Institute of Information Technology popularly known as GIIT is established in city Gwalior is a part of GEC Group of Colleges.

Apart from various welfare schemes for the benefit of the people, the society plans to Provide Technical manpower for the national prosperity and improving quality of life of the people through Technical Education. The GIIT has been established with the object of providing high quality Technical Education in the pollution free natural environment. It has been planned for development with all modern facilities of Buildings, Laboratories, Workshop, Computer Center, Library, Audio-Visual teaching-aids, Games & Sports facilities and other recreational facilities.

Members of the Executive Management Team of the College have a wide range of skills and experience in the training and education field and are actively involved in their respective professional associations, maintaining links with colleagues to advance the interests of the College, students and faculty. The library has 12576 books and 148 journals. Software has been incorporated so that students & staff can make full utilization of library. A spacious Reading Room with Reference Books and journals has been provided.

Achievement

Achievements (ISO 9001: 2008 Certification)

The prime objective of GIIT is to set excellence in students and see that they deliver excellence in whatever they do. Therefore since establishment of the institute, right from admitting the students and starting the process of learning, the college is very much particular about development of Quality Management System. The Institute is continuously striving in this direction, it is no wonder that our's became the first college in its class to receive the ISO 9001: 2000 certification by JAS-ANZ (Joint Accreditation System of Australia and New Zealand) through Transpacific Certification India Ltd. The purpose of ISO Certification is to formulate and promote the use of International standards for all Industries, Institutes and other corporate sectors.

About Conference

This conference provides a huge platform for mathematican, scientist, engineers, academician and professional who are involved in cost effective soutons.The aim of this conference is to bring mathematician, professionals, academicians and scientists, from all major brancches of science and engineering from leading organaizations to discuss their nobel ideas and thoughts.

Aim & Scope

This conference provides an international forum for researchers, developers and solutions to exchange their valuable ideas and showcase the ongoing works which may lead to path breaking foundation of the futuristic engineering. The aim of this conference is to bring together the academicians, scientists, engineers and manufacturers from various

institutions, universities, colleges and industry to discuss the relevance of various futuristic technologies emerging in this area throughout the world.
